TOM—CREW SAVED.

WASHINGTON OFFICIALS SHOCKED

Latest Attack.

The American steamship Leelanaw, laden with a cargo of flax bound from Archangel to Belfast, was torpedoed and sunk by German submarines off Scotland Sunday. The crew reached Kirkwall in the Leelanaw's own boats.

The steamer was owned by the Leelanaw Steamship Co. of New York and was 280 feet long and of 1900 gross tons.

Flax Contraband.

Germany has declared flax contra-  
band, and this is supposed to have  
caused the attack.

Shock to Washington.

The torpedoing of the Leelanaw  
was a shock to Washington officials,  
who see a further aggravation of the  
situation with Germany.

President Wilson, at Cornish, de-  
clined to comment on the affair pend-  
ing the receipt of official details.

Members of the president's party  
expressed relief when it was learned  
that the crew has been saved. The  
Leelanaw was commanded by Capt. Bell.

German Raid Failed.

A German air raid on the Vistula  
bridge at Warsaw failed, but caused  
several casualties among civilians, Pe-  
trograd reports.

Britain's Reply Here.

Great Britain's reply to the Amer-  
ican note of March 30, protesting  
against the enforcement of orders in  
council which restrict neutral com-  
merce, has been received in Washing-  
ton. The note holds that the orders  
are within international law, though  
they may involve a new interpreta-  
tion of the principles of the law; and  
it argues that it is proper to wait un-  
til there is a judicial interpretation  
of the orders.

Regarding German Reply.

There is every indication that con-  
siderable time will elapse before Ger-  
many will attempt to reply to the  
American note dispatched last week.  
The note is universally condemned in  
Germany, according to dispatches. It  
is believed, however, that if the Uni-  
ted States vigorously assails Great  
Britain's methods of controlling the  
seas the reply will not be brusque.

"Insane Asylum"

Former Secretary of State Bryan  
in an address at San Francisco said:  
"To go to war with Germany would  
be like challenging an insane asy-  
lum."

Teutons Cross Narow.

The Teutons have crossed the River  
Narow, according to Berlin advices  
and are within 25 miles of Warsaw  
on the east and within twelve miles  
on the south; two positions have been  
taken by storm. The Russians are  
fighting fiercely to hold the Lublin-  
Chelm railroad.

Many Russ Prisoners.

According to a German correspond-  
ent, 131,000 Russians have been cap-  
tured since July 14.

British Steamer Sunk.

The British steamer Grangewood,  
3400 tons displacement, has been tor-  
pedoed and sunk; the crew was saved.

Dunne, who is spending several days

Officials Today

The Third Regiment of infantry,  
the first of the down-state regiments  
to occupy Camp Dunne, arrived in  
this city Sunday, some of the compan-  
ies not reaching here until nearly  
noon; but routine camp life was un-  
der way by evening despite the delay  
in the troops arriving.

The Second Regiment got away  
early Saturday evening in two special  
trains over the Northwestern and for  
a time the camp was deserted but for  
the post quartermaster and advance  
details of the Third.

Today Mayor Henry Schmidt and  
several of the city officials and offi-  
cers of the Commercial club visited  
Camp Dunne to welcome Col. Green  
and his command, and incidentally to  
request a downtown concert by the  
Third Regiment band, of which Prof.  
Tonniges of DeKalb is director. The  
band will be remembered most favor-  
ably by all who heard them during  
the encampment two years ago, and  
their concerts will be accorded a  
warm welcome by Dixon people.

COMMITTEE TO HELP  
CONDUCT LEE SOIL  
IMPROVEMENT ASSN.

VICE PRESIDENT AND EXECU-  
TIVE BODY CHOSEN AT  
MEETING SATURDAY

WAGE EDUCATIONAL CAMPAIGN

A very interesting and productive  
meeting of the Lee County Soil Im-  
provement Association was held at  
the rooms of the Amboy Commercial  
club Saturday, at the call of Presi-  
dent S. L. Shaw of Lee Center. The  
charter, which was recently received  
from the Secretary of State was  
read, and a constitution and by-laws  
were adopted.

Herbert Conner of Amboy was  
elected Vice President of the Associa-  
tion and an executive committee was  
appointed to assist the officers in the  
management of the association, the  
members of this committee being: E.  
L. Titus, Steward; Jacob Ghier, Sub-  
lette; Amos H. Bosworth, Dixon;  
J. C. Miller, Paw Paw; and J. C.  
Griffith, Ashton.

A publicity committee, of which  
Herbert Conner of Amboy is chair-  
man, and George B. Shaw of Dixon,  
George Carpenter of Amboy and Ed-  
ward Guffin of Paw Paw are the other  
members, was named, to spread the  
doctrine of soil improvement  
throughout the county. It is planned  
by this committee to wage an exten-  
sive educational campaign to every  
nook and corner of the county that  
all may learn of the common good  
that will result from such an associa-  
tion and from the engagement of a  
soil expert to assist in increasing the  
crops of Lee county.

PLANNED TO GO ON EASTLAND

Dixon Ladies Changed Plans At Last  
Minute, Parents Hear.

But for a quick change in their  
plans, Misses Marie, Beatrice and  
Ruth Adams, daughters of Mr. and  
Mrs. Albert Adams of Dixon, might  
have been victims of the Eastland  
catastrophe in Chicago Saturday. Mr.  
and Mrs. Adams received word Sun-  
day that their daughters and Mrs.  
Francis Schumacker and husband  
and Mrs. Robert Kingstrand and hus-  
band had planned to make a lake trip  
on the steamer but for some unex-  
plained reason cancelled their plans  
at the last moment.

STATE ALMOST FREE  
FROM QUARANTINE

LEE IS ONE OF BUT FOUR COUN-  
TIES IN WHICH RESTRIC-  
TIONS EXIST.

Washington, D. C., July 26—There  
is now no territory in Illinois quar-  
antined for foot and mouth disease  
outside of Cook, Dupage, Lee and  
Ogle counties. In Cook county the  
Union stock yards are still an expos-  
ed area. In the other counties, terri-  
tory close to premises which have re-  
cently been infected now constitute a  
restricted area, and feeders and  
stockers can not be shipped from  
these places into territory where the  
disease has never appeared. With the  
exception of this restriction and the  
restrictions upon the Union stock  
yards the foot and mouth disease of  
Illinois appears to be a thing of the  
past.

ADJUSTS DIFFERENCES

This afternoon before Justice Geo.  
W. Hill a hearing was had on a com-  
plaint by B. F. McCall against Elmer  
McCleary on a charge of assault and  
battery. The alleged trouble occurred

costs.

SECOND'S ARMORY IS MORGUE

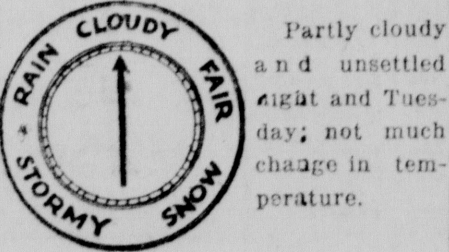

Troops Which Left Dixon Saturday  
Night Went to First Armory.

Shortly after the troops of the Sec-  
ond Regiment, I. N. G., had entrained  
and left this city Saturday night,  
a message arrived for Col. Garrity,  
commanding the regiment, instruct-  
ing him to take his command to the  
First Regiment Armory in Chicago.  
Instead of to their own quarters, as  
the Second Regiment armory was be-  
ing used as a morgue for victims of  
the Eastland disaster. The message  
was forwarded to the Colonel and un-  
doubtedly it reached him before the  
troops arrived in Chicago.

Miss Dorothy Lance of Woosung

Barber At Camp  
Dunne Is Victim  
Of Night Attack

N. E. McCorkill Found In Pool  
Of Blood In His Tent  
Sunday Morn

Shortly before 2 Sunday morn-  
ing members asleep in the commis-  
sary tent at Dunne heard the moans  
of a person as if in pain in an adjoin-  
ing tent occupied as a barber shop  
by William Curran of this city. On  
investigation they found N. E. Mc-  
Corkill, a barber employed by Mr.  
Curran, lying on the floor of the tent  
in a pool of blood and with a long  
gash across his forehead. He was  
brought to this city where the  
wounds were dressed.

The young man had been assisting  
Mr. Curran at the Camp barber shop  
since the establishment of the camp  
two weeks ago, having come to this  
city from Rockford. In giving an  
account of the mix-up he claims that  
he was asleep in the barber chair  
when he heard someone in the tent  
groping around in the dark, and on  
inquiry as to what was wanted he  
was dealt a blow across the head,  
and the stranger made his get-away.  
What motive the assailant might  
have other than robbery is not  
known. It was rather quite around  
the camp after 9 o'clock as all the  
members of the Second regiment had  
left by that time and Mr. Curran had  
not returned to the camp after sup-  
per and before leaving had taken  
with him the receipts of the day. The  
officers are now investigating the  
case but so far have gained no light  
on the affray.

DIXON IN DARKNESS  
AS ELECTRIC STORM

MERCHANTS AND SHOPPERS

TWO MEN AFFECTED BY JUICE

In the candle light, in the candle

What were you about  
When the lights went out?  
Were you buying meat; or out on  
the street?

Maybe you were in a show.  
You were buying soap, you had ask-

Then you wished to fight—'twas  
last Saturday night

When you shopped in the candle

Another severe electrical and rain  
storm visited Dixon and vicinity Sat-  
urday night, but as far as is known  
the damage occasioned was not es-  
pecially severe. The storm was de-  
cidedly local, reports showing that at  
no place in this section was the elec-  
trical element as violent as in Dixon,  
while the rainfall was much lighter  
in other places in this territory.

The greatest inconvenience caused  
by the storm was felt by the busi-

SOLDIERS TO ATTEND DANCE

Members of Third Regiment Will  
Participate Tuesday Evening

The success which has attended  
the military dances given by Com-  
pany G at their Armory over the  
Netts garage during the encampment  
of the various regiments at Camp  
Dunne, indicates another large at-  
tendance tomorrow evening, when  
the officers and members of the  
Third regiment will mingle with lo-  
cal dancers in tripping the light fan-  
tastic. Music for the dance will be  
furnished by the Marquette orches-  
tra and an invitation is extended to  
all Dixon dancers to assist in making  
the visiting militiamen enjoy  
their stay in this city.

TOTAL OF EASTLAND DEATH WILL  
NOT BE KNOWN UNTIL BIG BOAT  
IS RAISED; MISSING LIST GROWS

PREPARATIONS ARE BEING MADE FOR RAISING SHIP — WORK  
REQUIRE SEVERAL DAYS—DIVERS REPORT MANY BODIES IN  
HULL WHICH CAN NOT BE REMOVED UNTIL BOAT IS RAISED  
—TRAFFIC RESUMED IN RIVER TODAY AND CROWDS ABOUT  
SCENE OF DISASTER WERE COMPARATIVELY SMALL—CLAIM  
EASTLAND WAS UNSAFE REGARDLESS OF DILIGENCE OF ITS  
CREW TO COMPLY WITH REGULATIONS — MEMBERS OF THE  
CREW BELIEVED TO BE HIDING TO AVOID TESTIFYING.

TASK OF FIXING RESPONSIBILITY IS BEGUN

(Associated Press)  
Chicago, July 26—The task of fix-  
ing the responsibility for the over-  
turning of the steamer Eastland was  
begun today by federal and state of-  
ficials.

Eastland Unsafe.

States Attorney Hoyne declared  
this morning that the evidence in  
hand indicates that the Eastland was  
unsafe regardless of the diligence  
of the crew in complying with the reg-  
ulations.

Searching For Crew.

Hoyne is searching for members  
of the crew whom it is believed are  
hiding to avoid testifying.

Civilians' Board.

A board of civilians and naval offi-  
cers will probably be asked by the  
Department of Commerce to investi-  
gate in addition to the investigation  
by the Board of Steamship Inspect-  
ors.

After Empty Jobs.

Hundreds of unemployed applied  
at the works of the Western Electric  
Co. today for the jobs of those who  
were drowned; but they were turned  
away. The officials of the company  
said that none were wanted. The po-  
lice held the crowds in check.

810 Bodies at Noon.

At noon Coroner Hoffman reported  
that 810 bodies had been recovered.  
The Western Electric Company's list  
of missing at that time contained 176  
names and the total of missing was  
being added to hourly as the heads  
of departments reported.

Total of 1200.

Coroner Hoffman believes the total  
dead will reach 1200. Divers reported  
they believe there are at least 200  
additional bodies still in the hull and  
that many can not be removed until  
the vessel is raised, preparations for  
which are being made. The work will  
require several days.

Traffic Resumed.

Work of searching the interior of  
the boat and dragging the river con-  
tinues slowly. Traffic has been resu-  
med in the vicinity of the disaster and  
the crowds around the street and  
bridge are comparatively small.

Summons Inspector

States Attorney Hoyne has sub-  
poenaed Charles Westcott of Detroit,  
supervisor of the Eighth district of  
Federal Steamboat Inspection, to ap-  
pear before him.

"Criminal Carelessness."

Police Deputy Schuetler declares  
the records he has turned over to his  
chief indicate that while the capacity  
of the Eastland fixed by the govern-  
ment was 2,070, more than 2,400  
were on board "Criminal negligence"  
is responsible for the disaster is the  
statement made by Chief of Police  
Healey, after a careful examination of  
the documents and records turned  
over to him. He declined to amplify  
this statement before the comment  
that "the documents are highly inter-  
esting," but he at once sent for  
States Attorney Hoyne, Acting May-  
or Moorehouse and Coroner Hoffman  
to attend a conference in his offices,  
at which, it is believed, a line of  
prosecution will be determined upon.

The acting mayor announces that  
an Eastland relief fund of \$200,000  
will be raised by public subscription.  
The Western Electric company an-  
nounced there was \$100,000 available  
for relief work in the Employee's Ben-  
efit association treasury.

ESTIMATES 1050 DEAD.

Chicago, July 26—This afternoon  
Coroner Hoffman, after revising all  
his figures, said he estimated the to-  
tal dead in the Eastland disaster at  
1050.

FIRST FUNERALS HELD.

Chicago, July 26—The first fune-  
rals of the victims were held today,  
more than 3000 corteges passing  
through the streets.

CAUSE OVERLOADING.

Chicago, July 26—After question-  
ing several witnesses, States Attorney  
Hoyne expressed the opinion this af-  
ternoon that the accident was caused  
by overloading. It will require ten  
days to raise the Eastland.

pany, who died in the Chicago river  
disaster, are provided for under an  
insurance plan which is maintained  
through affiliation with the American  
Telephone and Telegraph company.

The death benefit provides payment  
of six months' wages to dependents  
of those having been in the employ  
of the company for five years or more  
and one year's pay to those having  
served for ten years or more.

2,408 Aboard Eastland.

Chicago, Ill., July 26—W. K. Greene-  
baum, manager of the Indiana Trans-  
portation company, who was in charge  
of the excursion, said regarding over-  
crowding of the Eastland:

"The Eastland was the first boat  
to load, and the docks were crowded  
with passengers who were to be taken  
on the other boats near by. One  
United States steamboat inspector and  
two assistants watched the East-  
land load. They stood at the gang  
plank and counted the passengers as  
they went aboard. Their reports  
show there were 2,408 passengers on  
the Eastland, its full capacity, under  
the United States steamboat regula-  
tions, being 2,500."

Many Probes Begun.

Chicago, July 26—The various in-  
vestigations into the loss of the East-  
land have taken these forms:

Coroner Hoffman's jury met this  
morning and began hearing evidence.  
State's Attorney Hoyne expects the  
grand jury to meet, though this is not  
definitely decided.

The federal grand jury, summoned  
by Judge Landis of the United States  
court, will meet Thursday.

Dickerson H. Hoover of Washing-  
ton, acting supervisor general of  
steamboat inspection, and Charles H.  
Westcott, of Detroit, district super-  
visor, reached Chicago yesterday and  
began gathering evidence.

Chief Healey and Deputy Schuetler  
of the police are giving every aid they  
can to all investigators.

No Bearing on Catastrophe.  
Syracuse, N. Y., July 26.—William  
C. Redfield, secretary of commerce,  
made public correspondence with W.  
H. Hull, general manager of the St.  
Joseph-Chicago Steamship company,  
owners of the ill-fated Eastland.  
These letters prove the Eastland to  
have been inadequately equipped for  
emergencies. They show further that  
the management of the steamship  
was unwilling to meet the require-  
ments of the seamen's act, and and  
frankly asked its suspension.

THE PALM LEAF FAN.

The palm leaf fan is a five cent substitute for a \$500 summer trip which is used with great success by millions of people.

The operation of this wonderful device is very simple. The performer grasps the fan firmly in his right hand and waves it back and forth thus producing a cool refreshing breeze about as violent as a stage windstorm. As the operator continues to work he produces a gentle perspiration. This evaporates in the breeze producing a delightful feeling of coolness, equal to that obtained in a \$4 a day room on the lee side of a summer hotel.

The palm leaf fan can be bought anywhere and can be carried around with no exertion at all, but many people are discarding it in favor of the mechanical fan which works by electricity and can produce a windstorm for 1 cent an hour. The electric fan, however, is not as good as the gasoline fan. This consists of a gasoline engine with automobile attachment. By means of this appliance a man

can fan his entire family and one or two neighbors all evening at a total expense of 45 cents for gasoline, 25 cents for oil, 7.45 for depreciation and 70 cents for ice cream sodas and cigars.

It is no wonder that with such vast improvements the palm leaf fan is looked down upon coldly by all who are prosperous and adopted with enthusiasm by all who intend some day to become prosperous.

The principal fault of the hand-blizzard as produced by this sort of fan is that it requires muscle. Nothing is conserved these days but muscle. A man would laugh at the idea of wearing out his wrist during the week operating a palm leaf fan when he needs every ounce of his strength on Saturdays and Sundays to put the last twenty-five yards on a golf ball which cost him 75 cents and will be seized by his opponent, unless it gets to the hole first.

It is also impossible for a woman to manipulate a fan and reserve the delicacy of wrist necessary to sit through a long whist party at a fair profit.

For these reasons the cost of fanning has increased about 11,000 per cent. In the last few years and has occasioned many bitter complaints over the rising price of porterhouse steaks.

And Oregon Is Dry?

From the Ogle Co. Republican, published at Oregon:

While hoeing corn at his farm southwest of Oregon a few days ago, Uncle Joe Rippberger and son Lawrence ran across a land turtle about the size of a breakfast plate. In looking him over they discovered the initials, "G. K. and L. R., 1895," cut in the shell, which brought to mind that Lawrence Rippberger and Gus Kaiser met the same turtle under like conditions twenty years ago and marked him—which shows that a turtle will live to a ripe old age and attend to his own business—if left alone.

A Pome On Ye Editor.

Breathes there a man with soul so dead, who never to himself has said: "That editor has quite a head. I'm glad to take his paper. He's got a raft of grit and sand, he prints the news of all the land, he boosts the town to beat the band, and that's the proper caper. He soaks the grafters in the neck, he saves the Ship of State from wreck. He's Johnnie on the spot, by heck, when things are in a jumble. He writes the ads that bring the dough; he chases all our gloom and woe; he tells us all we want to know—and yet he is quite humble. ## PAWPAW AND DIXON WILL MEET TUESDAY

FANS ARE ASSURED OF A GOOD CONTEST AT LINCOLN PARK DIAMOND

## SUNDAY GAME IS CANCELLED

Wet Grounds and the Threatening Weather Resulted in No Contest.

Because of the exceedingly muddy diamond and the prospects of more rain during the day, the scheduled baseball game between the Dixon Home Guards and the Mt. Morris Independents was cancelled early Sunday morning, consequently Dixon fans went without their weekly sport.

Tomorrow afternoon at Lincoln park the Pawpaw team will meet the Home Guards and those of the fans who want the local team to continue after next Sunday's contest should arrange to show that desire by attending tomorrow's contest; for the management has put the future of baseball in Dixon this season up to the attendance at tomorrow's and next Sunday's games.

That Pawpaw bunch will make the locals go their best tomorrow. In the recent game at Pawpaw, Dixon was trimmed, 2 to 1, and the boys from the south end of the county expect to take another scalp tomorrow. Lightner will pitch for Dixon with Stratton or Keenan behind the bat.

## WALTON, 17; ST. MARY'S, 10

Local Boys Participated In Sluggest Sunday Afternoon.

St. Mary's baseball team went to Walton Sunday to take on the hard hitting and much older Waltonites, and they were trimmed 17 to 10, but the Dixon lads gave a decidedly good account of themselves in the slugfest. Coffey and Blackburn were the Dixon battery.

## COMPANY G DRILL

Company G will drill this evening and inasmuch as this is the last drill before the company goes into camp, a full attendance is desired.

## The Pianist's Speed.

Astonishing statistics have been gathered with reference to the amount of work accomplished by the brain and nerves in piano playing.

A pianist in view of the present state of pianoforte playing has to cultivate the eye to see about 1,500 signs in one minute, the fingers to make about 2,000 movements and the brain to receive and understand separately the 1,500 signs while it issues 2,000 orders. In playing Weber's "Moto Perpetuo" a pianist has to read 4,541 notes in a little under four minutes. This is about nineteen per second, but the eye can receive only about ten consecutive impressions per second, so that it is evident that in very rapid music a player does not see each note singly, but rather sees them in groups, probably a bar or more at one vision. In Chopin's "Etude" in E minor, in the second set, the speed of reading is still greater, since it is necessary to read 3,550 signs in two minutes and a half, which is equivalent to about twenty-six notes per second.—Independent.

## Two Doctors.

The famous Dr. John Abernethy, accusing a rich and famous quack, said: "Sir, you are no surgeon. You swindle the public. You deceive your patients. You are totally ignorant and utterly unscrupulous, and yet you live in a palace, ride in a chariot and actually smell of wealth. I, John Abernethy, surgeon of London, an operator, a student, an author, I, who strive to be an honest and conscientious man, must live in a humble abode, must walk my rounds and only by the hardest work do I make a bare living. Why are these things?"

The quack said: "Mr. Abernethy, yonder is London bridge. How many people, think you, cross it in a day?"

The surgeon answered: "I do not know; perhaps a hundred thousand."

The quack responded: "And how many of them are fools? You, Mr. Abernethy, attend the wise men; I attend the fools."

## A Premier Who Won't Write.

Count Okuma, though he is the author of books and pamphlets and innumerable magazine and newspaper articles, dictates all his work to a secretary and so far as is known has never even written his own signature. The truth of the matter is that he forms the beautiful Chinese characters like a schoolboy, and, since the autographs of the great are highly prized in Japan, many expedients have been successfully tried to get a scrap of his writing. A friend once made an attempt which came near being successful. He pretended to have forgotten how to form a certain Chinese character and asked how it should be written. Count Okuma took up the brush and paper, which had been conveniently placed at his elbow, but the plot failed at the last moment, for he put down the writing material with his finger on the ashes of the hearth.—Carl Crow in World's Work.

## BIG COUNTERFEITING HEAD IS CAPTURED

Confesses \$40,000 in Bogus Money Passed by Gang.

Detroit, Mich., July 26.—George Ryan, twenty-seven, arrested here on a charge of counterfeiting, confessed, the police say, that within nine months he had made, and his assistants had passed, more than \$40,000 in spurious money in cities and towns between New York and St. Louis.

Several hours before Ryan was captured Lillian Wakefield, Edith Grey and Matthew Hennessy were arrested in Saginaw, charged with passing counterfeit \$5 bills. It was information obtained from them that led to Ryan's arrest. Later William Kopp and Valentine Furley were taken. They confessed that they were confederates of Ryan and did business in Michigan cities on a "fifty-fifty" basis.

According to the police, four plates used in making \$5 bills were found on Ryan when he was searched at headquarters.

## CHRISTMAS NOW THE DATE

Kaiser Plans to End the War as Holiday Gift.

Paris, July 26.—Before going to Posen to confer with his generals the Kaiser held a crown council in Berlin, according to a telegram from Copenhagen.

The emperor declared that Germany could not undertake to negotiate with her enemies until Warsaw and Calais had been captured. With Generals Von Hindenburg and Von Falkenhayn he drew up final plans to end the war, which, the emperor said, must terminate before next Christmas.

## MANY UNUSAL THINGS IN BASE BALL WORLD

JACK NESS SETS PACIFIC COAST LEAGUE AFIRE WITH HIS HITTING

## HARPER GIVES TWENTY PASSES

Is Record For One Game—Indian Thorpe Has Proven Dead Timber

(Associated Press)

New York, July 26.—Baseball play in the major and minor leagues this season has been productive of a number of unusual performances, some of which have established records or supplanted those existing for some years. They include almost every department of the game and at the rate they are piling up, 1915 is likely to be remembered as the year of odd features.

In the Pacific coast league Jack Ness, first baseman of the Oakland team, batted safely in forty-one consecutive games for a total of seventy hits, breaking Ty Cobb's record of one or more hits in forty straight games, made in 1911. Previous to Cobb's advent the record was held by Hal Chase, who in 1907 batted safely in twenty-seven consecutive contests. The same year that Cobb was hitting so consistently, Otis Clymer was establishing the minor league record of safe hitting in twenty-five straight games.

Other extraordinary features include twenty bases on balls by Pitcher Harry Harper, in a game between Minneapolis and St. Paul of the American Association; the winning of two games in one day by Pitcher Mellinger of Cedar Rapids team of the Central Association, who allowed fifteen hits and two runs in twenty-four innings against Marshall town; a twenty-two inning scoreless tie game between Burlington and Keokuk in the same association; George Cutshaw's two safe hits on one pitched ball, which Umpire Klem declared legal, in the Brooklyn-Chicago game of July 10 and left fielder Rube Oldring's failure to take the field with the rest of his teammates, until several balls and strikes had been called upon the batter, due to an interesting conversation with Joe Sugden, in a recent Athletic-Browns game at St. Louis.

Passing of Indian  
The passing of Jim Thorpe, fam-

ous all-round athlete and winner of Olympic Games, individual honors at Stockholm, as a baseball demonstrated the fact that big league managers are not infallible judges of diamond material. John McGraw, of the New York Giants, signed Thorpe to expensive contract after the Indian had been declared a professional by the Amateur Athletic Union. Although Thorpe did not revolutionize baseball during his early days with the team, McGraw repeatedly declared that the Indian would eventually make good. Thorpe's inability to hit anything except straight ball pitching, which opposing twirlers took care that he did not get, proved too great a handicap for even this great athlete. Passed on to the Jersey City club of the International League, his weakness was so apparent to all pitchers that the hitless Indian was dropped from the class AA league as valueless.

## STOOD UP IN CANOE; SPLASH

Capt. Frank Welch Took On Water Ballast The Wrong Way

Frank Welch, son of Mr. and Mrs. John Welch of Ottawa avenue, stood up in his canoe Sunday morning, as he explained "to take on more water ballast," and in doing so he leaned over too far. The next minute there was a splash and the captain was in the briny, while rescuers were chasing the canoe with a launch.

## SELF IS EXPERT ON AUTO SPRING REPAIRS

DIXON MAN AROUSES GREAT INTEREST WITH HIS WORK AT GENEVA.

Aurora Beacon News: Commercial club members are taking a keen interest in spring welding and repairing work being done by F. E. Self, who conducts a garage and blacksmith shop at West First and State streets, because of his repairing broken springs on automobiles. He has an unusual knowledge of welding by a secret process. He is also a spring maker.

The members of the Commercial club believe that a spring making factory could be started in Geneva, and that with Mr. Self in charge, because of his knowledge of spring making and welding, it would be made a successful venture. They believe they see a chance to develop another good industry along this line.

## HARRY LAUDER

### World-famous Scotch Comedian, says:

"Tuxedo, for mildness, purity and fragrance, THE tobacco for me. With my pipe filled with good old TUXEDO, all my troubles go up in smoke. In all my world-wide travels I've yet to find its equal as a slow-burning, cool-tasting, sweet-flavored tobacco. TUXEDO satisfies me completely."

Harry Lauder

## Tuxedo Keeps the World in Good Humor

Here is the man whose life work is to make millions of people happy. In pursuing his call, he travels the wide world over. He is a great lover of his pipe, and in all sorts of corners of the earth he has tried all sorts of tobaccos.

What is his unqualified statement in regard to Tuxedo? Read it again: "I've yet to find its equal." This is the frank and candid opinion of thousands and thousands of experienced, judicious smokers. Tuxedo is absolutely the best all-around tobacco that modern tobacco science can make.

# Tuxedo

The Perfect Tobacco for Pipe and Cigarette

Uncorking a tin of Tuxedo is like lifting the lid on concentrated sunshine. And then, when you fire up! Well! The first puff's a revelation, the second's a revolution, the third just gets you happy-like! Then you're off—just as sure as you'll see the green grass and hear the birds sing next Spring.

The exclusive "Tuxedo Process" brings out the unsurpassed mildness, delicate fragrance and mellow flavor of the Burley leaf in a way that has never been successfully imitated. At the same time it refines the tobacco until every trace of harshness and "bite" disappears.

### IDLE THOUGHTS

We are forced to the conclusion that if the mere loss of his hair cost Samson his prestige as a strong-arm champion Samson must have been as much of a bluff in the sporting world of his day as are more of our professional prize ringers of today.

"I care not who makes the laws of the nation, so long as I can write its songs," cried the poet. A noble thought, surely; but, after all, if the laws of the nation were to visit proper punishment upon some of our modern song writers, perhaps they would feel differently about whom they sent to the Legislature.

After all, what is the modern dance but conclusive evidence that Terpsichore and St. Vitus have yielded to the tendency of the times, dropped their differences, and formed a trust?

Literature is the easiest game in the world, once you get the knack of selecting the right words from your vocabulary, and then of arranging them upon paper in the proper sequence.

A man who can never hope to set the world on fire may yet become an expert manipulator of a hot air furnace, which in the late analysis is a vastly more useful occupation.

Most theatrical angels originally qualified for their positions by taking Emerson's advice and hitching their wagons to a star.—John Kendrick's Bangs, in Judge.

### AN AUTOMOBILE LEXICON

Shock Absorbers—Articles calculated to offset the profanity produced by blowouts, punctures, skidding, etc.

Transmission—Refers to the transferring of money from the car owner's pocket to that of the repair man.

Clutch—should always be used in the plural. Refers to a prospect of getting into the clutches of an agent.

Garage—Synonym for beehive, i. e., a place where the auto owner gets stung and listens to honeyed words of wisdom (?).

Spark Plug—The chap who when she sits in the tonneau.

Battery—Usually coupled with assault in case of traffic accident.

Cut-out—Refers to non-owner, since each feels that he is cut out to be an auto owner.

Center Control—Occurs whenever a road hog occupies the middle of the highway and refuses to allow his fellow-autosists in the rear to pass.

### THE HOG

The Hog is an omnivorous suid quadruped, whose principal occupation is messing around in any old place that isn't fenced in. The Hog has to be kept in a pen; otherwise he will stray into places where he doesn't belong and where he can do no good, and make himself a general nuisance. Hogs have been educated to do tricks, but no matter how much schooling they have had they are still Hogs, and never change their manners. Big Hogs are worth more than little Hogs, especially after they have been canned. Canning Hogs is more profitable than raising Hogs, which proves that dead Hogs are the more valuable. The chief characteristic of the Hog is to root—he is not particular where. If a Hog were to be turned loose in an office he would poke around desks, mess up private papers and become a good deal of a nuisance. It wouldn't be exactly his fault, because he wouldn't have intelligence enough to know the rewas nothing for him to fatten on; he would just poke about in a senseless way, grunting unintelligible squeals, and keep human beings from doing their allotted tasks. Don't be a Hog.—Maurice Switzer, in Judge.

## HOW CAN THEY PAY IT ALL BACK?

Perhaps America is not only scorning her conscience, but making a fool of herself by supplying ammunition to Europe, because there is a good chance that Europe's debt will be so big that she can never pay it. Henry Clews, New York financier, writes an interesting letter on the financial condition of this country at the present time:

How will some of the belligerents pay for the enormous war supplies bought in the United States? This is the problem of the future in American financial circles. Orders thus far received already aggregate over one billion of dollars, and hundreds of millions more are practically sure to follow; for peace is not yet in sight, and the war has by no means reached its greatest intensity. Prognostications are futile; yet it is more than probable that the problem of financing the war has not reached the real crisis or test, and an increasing waste of life and property must be expected as the struggle grows in bitterness and destructiveness. It goes without saying that some of the warring nations who are directly or indirectly purchasing war material here cannot pay cash to any extent because they are evidently spending several times their national savings in prosecution of the war. Treasury notes can only be used to a limited extent and long term credit obligations will be the only basis on which these orders can be financed, because an indefinite period must elapse before Europe can again send us sufficient merchandise or gold to even approximately balance our exports. Gold we do not absolutely need, and Europe can not spare it in large enough amounts. Thus far Europe has returned us between 4 to 5 hundred millions of our securities; but European indebtedness to American manufacturers will increase on an enormous scale during the next six months, and the Foreign Exchange situation will be one demanding the highest skill and resourcefulness for solution. Foreign holders, especially British, seem unwilling to part with their American investments. It would seem, however, as if a partial solution will be the sending back to this country of a still larger portion of their holdings in Americans. The Canadian \$45,000,000 5 per cent loan, which will probably be promptly subscribed, will also help the situation.

The United States is the only important nation in the world that is now accumulating capital from its savings. It is also the only free investment market in the world, since all the great powers of Europe are pouring their savings and energies into the melting pot of war. There are no indications, however, as yet, of American disposition to buy foreign government bonds with any freedom. A fair amount might be absorbed by institutions and trust funds here, especially if terms were made still more attractive; but the amount would be relatively small when compared with the many billions already issued abroad. If, then, American manufacturers are to continue accepting munition contracts, some very extensive credits will have to be arranged for by American bankers; and these credits or short term obligations, whatever they may be, will eventually have to be extended or turned into fixed debt in some form. It is well, therefore, to keep in mind as to what would be the effect of the immense mass of foreign credits upon American finances, especially in view of the fact that the market for these foreign obligations on this side will necessarily be limited. Of course, the credits thus far granted have imposed no financial strain here, and they could undoubtedly be expanded without harm; but a new factor of great importance is being introduced into our finances, one with which American bankers and investors are not entirely familiar, and the handling of this problem successfully will require the greatest prudence and most skillful foresight. The best and most natural adjustment would be a gradual return of American securities from abroad, which investors here would doubtless absorb and which foreign holders could realize upon to better advantage than upon their home investments, for which there is only an indifferent outside market. A further return of American securities here would do no harm. We have plenty of funds to invest; but the owners are shy on new projects, and inclined more to shares of well established concerns, whose market values have been sustained in spite of present adverse circumstances. There is no doubt about one fact, and that is, American stocks, railroad or industrial, of the better class are now the most desirable and most substantial of any in the world's markets. Our growing resources, financial, industrial and commercial, as well as our freedom and distance from European distributions entitle them to preference above all others.

Home conditions are generally satisfactory. The crop outlook is particularly so. Some deterioration has taken place, as usual in summer months, and more may follow; but a bumper grain crop is now almost within reach, and the American farmer is practically sure of good demand and good prices for all food products, which mean another season of prosperity. The South is naturally disturbed over the cotton outlook, possibly more so than necessary. War has unavoidably damaged the cotton market, as it has many other staple commodities. It is the South's main product, and the restrictions imposed upon it by Great Britain have very naturally created irritation. But such inconveniences are unavoidable under the circumstances, and the British government has in numerous instances given evidence of a desire to interfere with American commerce as little as possible; especially in not putting cotton on the contraband list. It is impossible to escape the derangements of the war; and as long as the sea is kept open we cannot make serious or effective complaint. A tremendous wastage of cotton is going on in the battle fields of Europe—not to speak of the amount used in making explosives, which is estimated at from one to one and one-half million bales—and later on there will inevitably be a heavy demand for the staple to fill the void now being created. The steel trade is very active, chiefly, of course, the result of war munition orders. Prices are rising, and this great industry is certainly enjoying more prosperity than for several years. The dry goods trade shows a decided improvement, many buyers being in this market who are placing liberal orders for the new season's cotton fabrics.

## MANY OTHERS FEEL WORSE THAN HE DOES.

An official of the company that owns the Eastland, the steamer that turned over in Chicago and drowned many hundreds of men, women and children, is very ill over the affair. However, the money that he made out of the boat during the past years which it has been menacing the lives of thousands of women and children, will employ good doctors and he will recover, so we don't believe any great amount of concern need be demonstrated over him.

## SCENERY NOT UNDERSTOOD.

While fully agreeing with an esteemed contemporary that watching the styles is a seashore fascination, we cannot admit of its contention that man is utterly hopeless in that delightful game. Of course father cannot tell a blouse suit from an Indian tepee. Neither can he distinguish between a sport hat and a Chinese pagoda, but since glad some togs are only incidental to the real exhibit, ignorance of technical terms and the name of materials is no deterrent to his full enjoyment of the charming show.—Philadelphia Telegraph.

## CALLS WILSON "AUTOCRATIC"

Resolutions Adopted by Organization at Utica, N. Y., Denounce Step Taken by President as Usurpation of Power—Calls on Germans in America to Protest.

Utica, N. Y., July 26.—The following signed message was sent to President Wilson at Washington:

"Pursuant to a resolution directing the undersigned as a committee to transmit to you a resolution adopted at the convention of the German-American alliance of the State of New York, held at Utica on July 23 and 24, 1915, we hereby respectfully transmit to you the following resolution adopted unanimously at said convention:

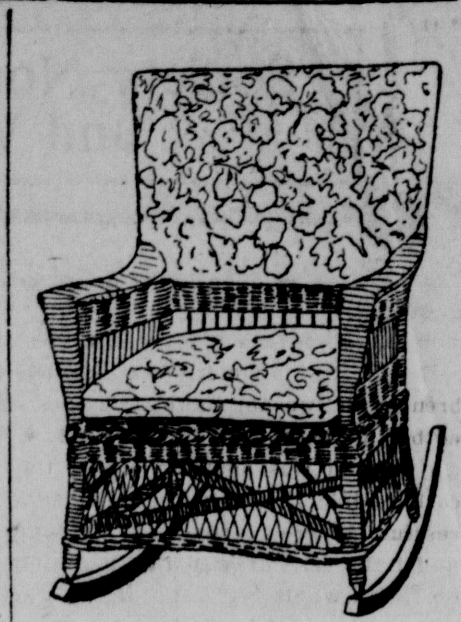

"Whereas, President Wilson, in his last note, has pressed the threat against Germany that any new case of an attack on an unarmed ship causing the death of American citizens will be considered as a deliberately unfriendly act, thereby assuming towards the German government, which insists that in self defense it cannot cease its submarine blockade, against England, an attitude which is equivalent to an ultimatum, and

"Whereas, This standpoint of our government makes impossible any compromise or a settlement of differences by arbitration and is not in accordance with the humanitarian, peace promoting policy of our republic, thus creating a situation out of which congress when eventually called, can hardly find a solution other than a declaration of war against our old fatherland; and

"Whereas, Germany, in this controversy, has made concessions to our government which will guarantee the safety of American passengers, so long as we do not export war material to the belligerents on passenger ships, thereby pointing out between two friendly nations the way for an amicable settlement of existing as well as future differences in line with our past arbitration policy, therefore be it

"Resolved, By the German-American alliance of the State of New York, in convention assembled at Utica, N. Y., on the 23rd and 24th days of July, 1915, that we condemn this autocratic action of the president, taken without previous consent of congress as a dangerous usurpation of power and appeal to our peace; that we support with the greatest energy the standpoint of the 'Friends of Peace' as expressed in the recent gigantic mass meeting attended by 100,000 citizens at Madison Square garden in New York city, and that we appeal to a peace loving people of our country and especially to the Americans of German origin, who are affected most by a conflict with their mother country, to take part by mass demonstrations and by overwhelming attendance at the national peace congress called to be held at Chicago Sept. 5 and 6, so as to demonstrate to the president that excepting in case of a hostile attack or an invasion of our country the American people are determined not to let themselves become involved in war with any nation."

Mrs. Marion Page of St. Paul, Minn., who has been here visiting with friends, leaves this evening for her home.

"In the Vosges at Ban-de-Sapt, we attained a new success. We seized some very powerful German defensive organizations, which extended between the heights of La Fontenelle, on the side of Hill No. 627, and the village of Tannols, and we occupied a group of houses which form the southern part of the village. ## SNEAK THIEVES AT WORK ABOUT DIXON

TWO SALOONS AND RESIDENCE IN NORTH DIXON VISITED BY ROBBERS.

Thieves worked in several sections of the city Sunday morning but secured little plunder. The Aschenbrenner & Sweeney buffet was entered by the removal of a rear window. An attempt was made to open the cash register but this proved unsuccessful. A screw driver was wedged under the cash drawer and in prying on it the whole register was put out of commission. The desk in the front of the room was ransacked but aside from two bottles of liquor, nothing is missing.

At the Fred Hemmen buffet on Hennepin avenue the glass was removed from a rear window but the big ice box against the window prevented entrance.

Edward Dysart and wife of Morgan street, returned yesterday from five weeks' trip in the west and found that someone had been in the house during their absence and much silverware was missing. On investigating it was found that entrance had been gained by forcing a window on the porch. A description of the missing articles has been furnished the police but they have practically no clue on which to start.

This morning Mrs. Dysart found the silverware taken from the sideboard drawer in an up-stairs clothespress, where the burglars doubtless placed it after discovering that it was plated ware instead of solid silver. Several articles of jewelry left in a jewel box in an up-stairs room are missing and until a thorough search is made it will not be known whether other articles are missing or not.

### FAMILY THEATRE.

This evening the Charlie Chaplin pictures will be shown on account of the theatre being engaged tomorrow evening for the commencement exercises of Strong's College of Music. The Chaplin picture is in two reels, entitled "Between Showers." The balance of the bill consists of Mary Pickford in "The Actor," "In the Dark," a three reel drama, and "Ham and Bud," a Kalem comedy of the same style as shown last Tuesday.

### PRINCESS THEATRE.

Tonight the Princess will show a two reel Majestic feature, "The Mountain Girl," with Dorothy Gish and W. E. Lawrence in the leading roles, an intensely dramatic episode of the California hills. The other pictures are "The Lie," a Reliance drama, with Betty Marsh and Wm. Hinkley in the

leading roles, a near tragedy of fisher life with a splendid cast of players. The last reel is a royal comedy entitled "One Good Cook," where in a widow and an undertaker are sadly misunderstood.

### OPERA HOUSE.

The vaudeville bill for tonight will include Roberts & Fulton, a jolly pair presenting a bunch of laughs; Scheke & Raud, comedy dog actors and one other act. Pictures are "He Fell in the Park," a tumble-down comedy in two reels, and "Seeing Indic," an educational pictorial film; also "The War of the Wild," a thrilling and sensational story of animal life.

on the circuit south of First street were out for several hours after 9 o'clock, plunging stores and barber shops into darkness.

Lamps, lanterns, candles, automobile lights, etc., were pressed into service with anything but satisfactory results; the condition resulting in almost a total suspension of business in the city for the evening.

### Struck by Electricity

Capt. H. J. Angle was affected by the electricity, a bolt striking him while he was standing in his garage on Hennepin avenue, with several friends, none of whom felt the shock. The "juice" knocked Mr. Angle to the floor, dazing him, and it was several hours before he fully recovered.

### Cook Affected

Frank Priel, a cook with the Rockford advance detail at Camp Dunne, was also affected by the electricity, the shock rendering him hysterical, and it was necessary to bring him to Dixon for treatment.

### Struck Two Houses

The adjoining residences of R. H. Espy and Lee Wise, 90 and 92 Crawford avenue, were struck, presumably by the same bolt. The siding on the south side of the Espy house was ripped off and plaster and paper in the dining room and an upstairs bedroom were torn from the walls. Little damage was done to the Wise residence.

## DIXON MAN'S FATHER IS DEAD

Paul Schauf, father of Joseph Schauf of this city, died this morning at 3:20 o'clock at the home of his daughter, Mrs. M. Delhey in Sterling after a several weeks' illness. Mr. Schauf was born in Stommeln, Germany, and was aged 80 years. He was numbered among the pioneer residents of Whiteside county, having taken up residence there on a farm near Deer Grove in 1861. He is survived by four children, Joseph of Dixon, John of Whiteside county, Mrs. Agnes Gaulrapp of Minnesota, and Mrs. Elizabeth Delhey of Sterling. The funeral will be held on Wednesday morning at 9 o'clock at St. Mary's church in Sterling.

## RESTA HAS NOTHING ON BILLY GILBERT

BUT DIXON MAN MISSED BOAT DESPITE RECORD BREAKING DRIVING

Mr. and Mrs. W. W. Gilbert and Miss Grace Crawford, who are members of a party of Dixon people who are taking a boat trip from Clinton, Ia., to Minneapolis, had intended to drive to Clinton in the Gilbert machine, take the machine aboard the steamer, and tour back. The weather was none too promising when they were ready to go Saturday, so they abandoned the motor trip and boarded the train for Clinton to catch the boat. When they got to Clinton the sun was shining brightly and the vanishing visions of a pleasant motor trip down from Minnesota mocked them.

They couldn't stand the disappointment so they got on the next train back to Dixon, got into their automobile and raced for Clinton again. They made good time, for they first left Dixon by train at 3:37, got to Clinton about 5, were back here again soon after 6 and were on the way to Clinton again by 6:30, but in spite of the fact that "Billie" Gilbert is some chauffeur, they were 30 minutes late when got to the dock on the Mississippi.

A speedy tug boat was dispatched after the big steamer fast disappearing in the distance, and before long the steamer docked again at Clinton and took the belated travelers aboard.

## PHONY BEGGARS ARE LIABLE TO JAIL TERM

Local authorities are interested in a new law which became effective July 1, directed against "phony" cripples, etc., the law providing that "Any person engaged in soliciting, procuring, attempting to solicit or procure money or other thing of value by falsely pretending and representing himself to be blind, deaf, dumb, without arms or legs, or to be otherwise physically deficient or to be suffering from any physical defect or infirmity, shall, upon conviction, be punished by imprisonment in the county jail not less than one month nor more than six months, or by a fine of not less than \$10 nor more than \$20 or by both fine and imprisonment."

ment of the department received from Hull and a reply to the effect that the law would be enforced, along with an expressed desire for exact information concerning the objectionable features of the act. Hull gave a frank admission of the conditions on the Eastland. His letter in part follows:

"In order to keep her maximum carrying capacity at the present figure we would have to increase equipment in life boats 66 2/3. This is a physical impossibility. If it were possible to put this amount of equipment on the Eastland the weight that would be added to her upper deck would make the boat difficult to handle. If your life saving equipment is allowed to remain as it is at present, our carrying capacity would be decreased 40 per cent. You can see a reduction of 40 per cent in carrying capacity would amount to considerable during the season in operating revenue. In addition to that there is no reason for an increase in life saving equipment on this run. Assistance, in case of trouble, could readily be secured from other steamers in the ports of Chicago, Michigan City, Milwaukee, St. Joseph and South Haven."

Secretary Redfield's reply in part follows:

"You mention that your vessel is at times in excess of an hour from shore (at mid-lake one hour and thirty-five minutes) and that she is at times within half an hour or more away from other steamers. You say, 'at all times is within ten to sixty minutes—steamers.' Your position is therefore one in which in case of serious accident you might be at least a half hour from help, and over twenty miles from shore, while possibly having on board as many as 1,799 persons for whom there are neither life boats nor life rafts. I do not criticize this. It is at present the permitted thing. With your present equipment of boats and rafts you would be permitted to carry 1,542 persons if rafts and boats were in proportion."

"Speaking candidly it seems to the writer personally and without criticism of your present course, which is permitted by the lawful authorities, that the existing conditions permit greater risk of serious loss of life and less protection against same either for you or for the public, and that the requirements of the seamen's law, however, temporarily difficult, are in the interests of public policy and of public safety."

## GENERAL LUIGI CADORNA

Italian Commander Reported to Have Taken Gorizia.

Photo by American Press Association.

Cornish, N. H., July 26.—President Wilson is taking the deepest personal interest in the fixing of responsibility for the disaster to the steamer Eastland at Chicago. After reading the reports of the great loss of life, he wired orders to the department of commerce that a searching investigation be made to determine if any violations of the steamship inspection laws were involved in the keeling over of the excursion steamer. The president is convinced that the national government has ample jurisdiction to bring about the punishment of persons responsible for the catastrophe.

The president's message to Washington carried urgent instruction that the agents of the department of commerce begin their investigation with all possible haste. Late in the afternoon word came from Assistant Secretary of Commerce Edwin F. Sweet that proceedings had already been begun.

The president sent a message to Mayor Thompson of Chicago expressing horror at what had happened and conveying his heartfelt sympathy for the relatives of those who perished.

## EDWARD M. GROUT IS GUILTY

Jury Convicts Former Controller of New York of Perjury.

New York, July 24.—Edward M. Grout, former controller of the City of New York, was found guilty of perjury. The jury coupled its verdict with a recommendation for mercy. The verdict came after fifty-three hours of deliberation.

The charge against Grout grew out of his connection with the wrecked Union bank of Brooklyn.

### Water Hemlock.

If you are fond of parsnips you should before eating them make sure that they are parsnips and not the poisonous roots of the water hemlock.

The water hemlock grows in marshy places in various parts of the United States. Its roots, which look almost exactly like those of parsnips, are full of a deadly poison known to science as spasmotoxin.

Animals frequently die from eating the hemlock and occasional cases of serious illness and death among human beings have resulted from eating parsnips with which the poisonous hemlock roots had been mixed by mistake. In India the water hemlock is a favorite method of suicide.

Even a very small dose of the poison in this root is sufficient to cause death from asphyxiation, paralysis and exhaustion and no antidote for it has yet been discovered.—New York American.

### Ancient Couriers.

It was the custom of the couriers of the middle ages to carry silver beads in their mouths to lessen thirst. In certain districts of India which are not traversed by railways the ancient couriers still survive and carry mails from village to village. In the jungle districts they carry bells about their necks to frighten away tigers. The American Indians had their swift runners, who carried messages in times of war between allied tribes or from the warriors in hostile territory to their native villages, and extraordinary tales are told of their swiftness and endurance. The running messenger in Europe was succeeded by the mounted messenger, and as civilization progressed systems of couriers were established, which slowly evolved into the modern system of posts.

### Presence of Mind.

Young Arthur, the pride of the family, had been attending school all of six weeks, and his devoted parent thought it was high time he should find out how things were running. So he asked one afternoon:

"And what did my little son learn about this morning?"

"Oh, a mouse, Miss Wilcox told us all about mouses."

"That's the boy. Now, how do you spell mouse?"

"It was then that Arthur gave promise of being an artful dodger. He paused meditatively for a moment, then said:

"Father, I guess I was wrong. It wasn't a mouse teacher was telling us about; it was a rat."—Harper's Magazine.

### Couldn't Blame Them.

Papa had a grinch, and an atmosphere of deep gloom settled over the family dinner table. Even little Bobby felt that something was wrong, but he had to talk or burst, and he preferred to talk.

"Daddy," he asked, "why did they throw the tea overboard in Boston harbor?"

"Daddy twirled the spoon in his cup while he thought up this mean thing to say: 'If it was anything like this stuff they certainly had a mighty good excuse for throwing it overboard.'"

Having got this remark off his chest, the old man felt so good that he actually smiled, and before he knew it his grinch was gone.—St. Louis Post-Dispatch.

## GERMAN OFFENSIVE IN RUSSIA GREATEST MILITARY MOVEMENT EVER ATTEMPTED

From near Riga, which is their objective in the extreme north, right down to the Bessarabia frontier, along a front of approximately 1,000 miles (indicated on the above map by a continuous heavy black line), the Austro-German armies attacked the Russian positions. The general scheme was the capture of Warsaw and the crushing of the Russian forces between two great armies, one operating from the north under Field Marshal von Hindenburg and indicated by the thickening of the black line on the map from Ossowetz to the neighborhood of Wyszogrod and another operating from the south under the general direction of Field Marshal von Mackensen and indicated by the thickening of the black line of the map from the neighborhood of Lublin down.

## FARMER'S WIFE TOO ILL TO WORK

**A Weak, Nervous Sufferer Restored to Health by Lydia E. Pinkham's Vegetable Compound.**

Kasota, Minn. — "I am glad to say that Lydia E. Pinkham's Vegetable Compound has done more for me than anything else, and I had the best physician here. I was so weak and nervous that I could not do my work and suffered with pains low down in my right side for a year or more. I took Lydia E. Pinkham's Vegetable Compound, and now I feel like a different person. I believe there is nothing like Lydia E. Pinkham's Vegetable Compound for weak women and young girls, and I would be glad if I could influence anyone to try the medicine, for I know it will do all and much more than it is claimed to do." — Mrs. CLARA FRANKS, R. F. D. No. 1, Maplecrest Farm, Kasota, Minn.

Women who suffer from those distressing ills peculiar to their sex should be convinced of the ability of Lydia E. Pinkham's Vegetable Compound to restore their health by the many genuine and truthful testimonials we are constantly publishing in the newspapers.

If you have the slightest doubt that Lydia E. Pinkham's Vegetable Compound will help you, write to Lydia E. Pinkham Medicine Co. (confidential) Lynn, Mass., for advice. Your letter will be opened, read and answered by a woman, and held in strict confidence.

## PENN. CORNERS

Pennsylvania Corners, July 23 — The social at the Corners of last Tuesday evening was exceedingly well attended, far exceeding expectations.

V. H. Bovey was taken suddenly very sick last Thursday, but is thought better now.

Mrs. H. H. Powell is numbered with the sick.

Miss Conie Seyster enjoyed a week's visit with Kempton, Ill., friends.

Clinton Stauffer and wife spent several days this week with Chicago friends.

David Baley is recovering from his recent accident.

Farms are being rented here for the coming year. Several changes will be made. Farm solicitors are legion.

Miss Kathryn Bovey is visiting Misses Lulu and Grace Funk.

Mr. and Mrs. George Babcock are entertaining a sister from Sterling.

Just a reminder, lest you forget the lawn social at the T. N. Cunningham home next Friday evening, July 30th.

Some corn fields here are seriously affected by grub worms. Many of the farmers are feeling very uneasy.

## HORSE KILLED IN RUNAWAY

One of Camp Dunne Animals Came to Tragic End At Viaduct.

One of the horses from the Camp Dunne stable got away from the hostler Saturday night and met death as a result of his runaway. The animal took the I. C. tracks for his speedway and got along famously until he hit the viaduct over Lincolnway. Its feet went between the ties and it was so badly hurt that it was necessary to destroy it.

## PEORIA RACE STAKES HIGH

Sprigan, Winner of \$2,000 Prize in California, One of Entries.

Peoria, Ill., July 26 — The races of the Great Western circuit will open in Peoria at the mile track on Tuesday, Aug. 3, and continue four days. Three races will be run on the opening day. A \$1,000 prize has been hung up for the opening event, the 2:09 pace, and will be followed by a pace and a trot with a purse of \$1,200. Wednesday, the second day of the races, will see prizes totaling \$2,200. Thursday the prizes total \$3,100, and Friday, the closing day, \$1,800. Entries have been received from 370 of the best horsemen in the country. Probably one of the best cards to appear will be Sprigan, owned and driven by De Ryder. Sprigan recently took a \$2,000 prize in California and is entered in the 2:09 trot.

## LONGEVITY RUNS IN FAMILY

## ILLINOIS FESTIVITIES TURN INTO MOURNING

**Eastland Disaster Changes Program at Panama Fair.**

San Francisco, Cal., July 26 — Thousands of Illinoisans who had gathered at the Panama-Pacific exposition to celebrate Illinois day remained to mourn the Eastland tragedy. They stood with bared heads while the band of the First Regiment of the Illinois National guard played "Nearer, My God, to Thee."

News of the disaster plunged Governor Dunne and other officials of the state into sorrow. Notices were sent out at once canceling the dinner reception and ball, Chicago day, set for next Tuesday, will be devoted to memorial services instead of festivities.

Mayor Thompson issued a statement, in which he said:

"I am shocked by the news from home, detailing the disaster which has befallen our city and brought sorrow to thousands of Chicago homes."

"My heart goes out in sympathy to each and every one afflicted by this terrible calamity. All events in connection with our trip have been canceled. I consider it imperative for me to return to my post as quickly as possible."

## "HELL ON THE WABASH" WINS

Macon County Fiddlers Hold Unique Contest at Decatur, Ill.

Decatur, Ill., July 26 — The sixth annual Macon county fiddlers' contest was held in the state armory in this city. There were 100 entries, ranging in age from ten to ninety-five years. Local merchants gave the prizes. The opening was "The Irish Washerwoman" by the entire company of 100.

David Weddell of Formosa, Kas., won the long-distance prize, \$12.50. Quay Fowler, seventy-eight years old, won the tallest fiddler's prize, being six feet six and three-fourths inches in height. Harry Bates won the mouth harp prize while standing on his head. Lyman Drake won the best old fiddler prize by his version of "Hell on the Wabash." The "boys" played such pieces as "Money Musk," "King Head," "Old Zip Coon," "Rory O'Moore," "Leather Breeches" and "Arkansas Traveler."

## SCHOFIELD HOTEL AND COTTAGES

This popular resort is almost as well known as the Dells. It has been entertaining summer guests for forty years, and has lately been enlarged in capacity by the erection of a large modern building, fully equipped with every modern convenience, and affording dining room, assembly parlors, etc. This is an addition to the popular cottage plan, and adds to the previous popular attractions of the older system. The hotel and cottages are in extensive grounds, delightfully shaded by large oaks, and being away from the river is most especially desirable for families with children. The location is in the edge of Kilbourn on a pretty resident street, but a pleasant walk from the river and depot, and with regular free bus and carriage service to these points. The large hotel is not surpassed in this locality in point of modern style and comfort. The annex cottages and grounds make it altogether everything that anybody would desire. The test of efficiency is in the table. This hotel is especially noted for its excellent table board. Fresh butter, eggs, vegetables and fruit are supplied daily from the farm, and its preparation by a professional chef is perfect; chicken dinners twice a week.

family for week or longer. Rooms with bath must be applied for in advance. Rates: \$2 per day, \$12 per week, half rates for children; rates made to family for week or longer. Rooms with bath must be applied for in advance. Free use of garage.

RUSSIANS LOSE  
LINE ON NAREW

Positions Believed of Vital Importance in Poland.

## WARSAW MAY BE BOMBARDED

Teutonic Advance From Blonie Toward Capital City—Austro-German Forces Are Put on Defensive by Ivangorod Garrison and Along the Southern Bug.

London, July 26.—Danger to Warsaw, more pressing than for several days and presaging the actual bombardment of the Polish capital, is seen in the Berlin official statement announcing that the Kaiser's forces have crossed the Narew river on the whole front from Ostrolenka to Pulask, the latter being only thirty miles north of the capital.

While the Germans are now approaching the Bug river near its junction with the Vistula, approximately twenty miles from Warsaw, the army operating from Blonie, west of the capital, has captured several more Russian positions, according to the Berlin statement, and is believed to be within firing distances of the capital if the heavy guns are put into play. Unofficially assert the city has already been fired upon.

Petrograd Undisturbed. Military experts recently have maintained unless the Russians could hold back the Germans on the Narew line the fall of the Polish capital was almost certain. Despite this fact, news dispatches from Petrograde indicate no new anxiety.

That the Russians are making a stubborn defense of Ivangorod to protect the railway line from southern Russian to Warsaw is indicated in the Vienna statement, which admits that the Russ defenders of that fortress attempted an offensive, but were repulsed. Vienna also admits a Russian offensive on the River Bug south of Krylow, where Austro-German troops are struggling to break through to the Cholm-Lublin railway.

Von Buelow Gains. Berlin claims further successes by Van Buelow's army south of Kovno and in the Dembowo region, northeast of Suwalki, where several Russian trenches were captured. The statement says Von Buelow is engaged in rearward actions, but it appears that the haste of the Russian retreat in the northern field has been checked.

## SUBMARINES SINK 3 SHIPS

One British, One French and Russ Ship Lost.

London, July 26.—After several days of inactivity the German submarine war has been renewed. Reports tell of the sinking of one British, one French and one Russian steamship by submarines, with four killed aboard the British ship. Four trawlers also were sent to the bottom by the German undersea craft and two other British trawlers were lost, one being blown up by a floating mine. On the trawlers eleven were drowned, five missing and two were injured.

The British steamer Firth, of 406 tons, bound from France to Scotland, was torpedoed in the North sea. The Russian steamer Rubonia of 3,644 tons was sunk by a submarine near Fair Isle. The French steamer Dancie was attacked by two German submarines and sunk eighty miles northwest of Cape Wrath on Friday.

## HIT BOY, CARRY BODY AWAY?

Mysterious Disappearance of Child Arouses Iowa Town.

Mason City, Ia., July 26.—Was Cecil Goldthrope stolen, he killed by a reckless auto driver, is he lost or was he drowned? These are questions yet unanswered, and while a solution is being sought a mother and father are almost frantic with grief.

The child, who was two years old, lived with his parents, Mr. and Mrs. Oscar A. Goldthrope, on the main road between Mason City and Clear Lake. Hundreds of automobiles pass the house every day, many drivers engaging in reckless speeding. One of the theories advanced is that some reckless driver struck the child and killed him, and rather than to give himself up he has carried the body away.

## 1-CENT POSTAGE IS URGED

Illinois Congressman Wants Next Congress to Lower Rate.

Washington, July 26.—Congressman William A. Rodenberg of Illinois declares that legislation creating a 1-cent postage on local delivery letters should be adopted in the forthcoming session of congress.

"I feel confident that such legislation would greatly stimulate local business and at the same time not cause any material falling off in the postal revenues," he declared.

## SIGNALS OF DISTRESS

DIXON PEOPLE SHOULD KNOW HOW TO READ AND HEED THEM.

Disordered kidneys give many signals of distress.

The secretions may be dark, contain sediment.

Passages are sometimes frequent, scanty, painful.

Backache is often present day and night.

Headaches and dizzy spells may occur.

Weakened kidneys should receive help.

Don't delay! Use a special kidney remedy.

Doan's Kidney Pills are for weak kidneys, backache and urinary disorders.

Dixon evidence proves their worth. Mrs. L. L. Shank, 1113 W. Seventh street, Dixon, says: "I had a severe pain in the small of my back and kidneys. It was hard for me to lift anything and after I stooped, I could scarcely straighten up again. I also had dizzy spells and headaches, was constantly languid and felt tired out. I procured Doan's Kidney Pills at Leake Bros. Co's Drug Store and they helped me from the start. Three boxes removed the trouble. Another of my family has also been helped by Doan's Kidney Pills."

## The Thermometer.

A thermometer the bulb of which contains mercury will not register under 28 degrees F. below zero—that is to say, mercury will freeze at that point. Of course in the temperate zones little practical use is found for thermometers showing more than 28 degrees below zero, but in the arctic and antarctic they are essential. Such instruments, however, contain spirits in the bulbs instead of mercury, but even this fluid becomes sluggish when 40 or 50 degrees below zero is recorded, and it will seldom show 60 degrees below.

## Norway's Fourth of July.

The Norwegian Fourth of July is the 17th of May, the declaration of independence previous to that country's last union with Sweden having been proclaimed on that date in 1814. Even the Norwegians in this country keep green the memory of that day.

#### Life of a Turkish Woman.

The Turkish women are to be counted among the most industrious women of the earth. They certainly do a vast amount of work. They make carpets, screens for doors, workbags, horse clothing and blankets. A Turkish girl makes all the kibitka, or tent domestic carpets, and other household requisites before she is married. If she gets married without completing this task it is expected that she will by her own labor refund the money which her parents have given as her dowry. This dowry usually consists of 100 sheep and a certain amount of money, which a bridegroom either pays down in a lump sum to the parents of the bride to collect his friends for a succession of horse races and other sports. An important part is to decorate a camel with the handsomest trappings, which are sent to the bride's tent. On this she goes forth to receive congratulations of her relatives and friends. It is on this she is carried away by the female relatives of the bridegroom. She and her attendants feign to resist the act by throwing raw oats at the other women.—*Indianapolis News.*

#### Got Him Guessing.

An old miner, a bachelor, had a pretty niece, who kept his house, and at his death he bequeathed all his earnings to her on condition that she married Tom J., a young miner in whom he had always taken a deep interest. But the pretty niece had no wish to marry Tom and put herself out of his reach by wedding a hard working factory lad. The heir at law was not at all displeased with the niece for marrying another, as he thought that now the old miner's wealth would come to him.

"That sister belongs to me now, I reckon," he said to the trustee, a white haired old collier, who had ideas of his own. "Susan's lost it by marryin' the wrong man. So you'd better hand it over."

"Not so fast, lad," replied the trustee. "You'll have to be patient for awhile. Susan may marry and bury a dozen husbands and still come down to you in the end."

And the heir at law is wondering whether this is really so.—*London Tit-Bits.*

#### His Fine Contract.

Giorgio Polacco's brilliancy as revealed in music does not extend to the domain of business if one may judge by a story told by Algernon St. John-Brenon. Mr. Polacco was approached on one occasion by a Milanese agent offering him an engagement at Lisbon. Mr. Polacco named a certain price as remuneration. The engagement, however, fell through, as Mr. Polacco had to go elsewhere. The next season the same agent asked Mr. Polacco his terms again and for the same city. Mr. Polacco named them. The agent, acting with a certain celerity, asked Mr. Polacco to sign then and there. This was done, and Mr. Polacco took his contract home to his wife. The latter read it. Then she folded it up and looked straight at her husband. "Giorgio," she said, very tranquilly, "you have made a great contract." "Ah," said Mr. Polacco delightedly, "I know I have." "Yes, Giorgio," resumed his wife, "you have asked and accepted less than last year—and also the season is a month longer."

#### Circles.

Circles are things in which people move and reason.

Those who move in circles imagine that they make the world go round, and those who reason in circles are positive of it. However, a wheel is really the only thing that can move in a circle and get anywhere.

The periphery of the face makes a circle, every part of which is equally distant from a point within, called the center.

Society has circles, especially under its eyes. Those who move in social circles move because they are so uneasy they cannot keep still.

Marital jars and connubial pugilism influence the belief that the family circle might frequently be termed a ring with equal appropriateness.

The girl who has many graceful curves generally has a large circle of admirers.—*Life.*

#### A Prose Poem on Mackerel.

I can't overemphasize the beauty of these fish. You must see them for yourself to grasp the reason for my enthusiasm.

Examine them. Look at the shape of them.

See their graceful lines, built like a torpedo for speed.

Look at that fine, solid nose, that beautiful firm back, that powerful two blade propeller shaped tail.

Study the stripes and dots.

Like the human finger print, each mackerel possesses an individualistic design.

No two were ever seen alike. The variations are simply infinite. The flesh is fit for the gods!

What a thing of beauty a mackerel is!—*New York Globe.*

#### A Warm Invitation.

The supreme court of Illinois in *Antler* versus the people of Illinois, 34 Ill. 486, held that the following was not a challenge to fight a duel, but seemed rather to invite one:

"Sir—It appears that a life is your favorite of settling fuses and if so be the case you can consider that it will suit me you are a Coward and darsent to except of my offer. I want the same chance of sharpenin' ml life you can set the day and I will be on hand \* \* \* come unlike a man chuse your man an I will chuse mine this thing must be settled iam not a coward."—*Chicago Tribune.*

#### Juvenile Definitions.

Miracle—Something that happened that couldn't.

Respect—The feeling one kid has for another wot kin lick him.

Fauna—One who comes to any country to live from another country.

Asked to state the difference between "results" and "consequences," a young ster replied, "Results is what you expect; consequences is what you get."—*Boston Transcript.*

#### A Contented People.

Famous for its fish, the little island of Marken, on the Zuyder Zee, is inhabited by a sturdy folk who have no desire to travel. Indeed, so satisfied are the people with their little island home that many of them die without ever having seen any other part of the world.

#### Liszt's Advice.

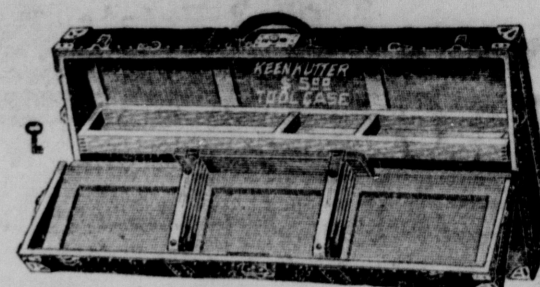

Being asked one day what one should do in order to become an efficient piano player, Liszt replied laconically, "One must eat well and walk much."

The secret of success is constancy to purpose.—*Disraeli.*
